SUMMARY

I am passionate about developing seamless user-friendly web applications. My technical skills include HTML, CSS, JavaScript, React JS, Node Js, Express JS, MongoDB, My SQL, Java and other frameworks. I have honed these skills as a Full Stack Developer Intern at Technical Hub, where I actively contributed to various robust applications.

EDUCATION

B. TECH, Electronics and Communication Engineering

May, 2024

Aditya College of Engineering, Surampalem

7.3 CGPA

TECHNICAL SKILLS

Web Development	HTML, CSS, JavaScript, Node Js
Frameworks/Library	React Js, Express Js, Bootstrap, Redux-toolkit
Programming	Java
Databases	MongoDB, MySQL

WORK EXPERIENCE

Technical Hub: Full Stack Developer Intern

Jun 2023 – Aug 2023

- Enhanced web development skills as a Web Developer Intern at Technical Hub, focusing on HTML, CSS, JavaScript, React Js, Node Js, and MongoDB, while contributing to robust application development and gaining practical insights into industry standards, emphasizing backend proficiency.

Freelance Web Developer

Dec 2023 – Jan 2024

- Spearheaded the creation of an innovative E-Commerce website, STAAR Exports Imports, facilitating seamless international trade with a sleek design and sophisticated email notification system. Leveraged React Js, Node Js, for dynamic functionalities. [Try it](#)

PROJECTS

Event Organizer Website

Feb 2023 – Mar 2023

- Developed dynamic React-based web app integrating with Google Calendar API for CRUD operations, featuring secure Google Auth login. Backend powered by Node.js with MongoDB for scalable event data storage and management. [Try it](#)

Hospital Management Website

Feb 2023 – Mar 2023

- Developed a Hospital Management Application, revolutionizing healthcare processes by seamlessly generating OP records, capturing patient details, and monitoring medical stock.
- Utilized React.Js, Node.Js and MongoDB Atlas, showcasing expertise in digital transformation for enhanced functionality. [GitHub](#)

Car Rental Website

Dec 2023

- Developed a real-time car rental app with seamless user experience for both customers and owners. Users can easily book vehicles and manage bookings, while owners efficiently manage car inventory.
- Utilized React.Js, Node.Js, and MongoDB. [GitHub](#)

Restaurant Management System

Feb 2023

- Developed a console-based Restaurant Management System in Java, utilizing File System and CSV for order management and bill generation. [GitHub](#)

CERTIFICATIONS

- I have successfully completed the **JavaScript** certification from IT specialist.
- I completed the **Java** Foundations course and obtained a certificate from Oracle Academy.
- I have successfully completed the Java **Full Stack Developer** from Wipro TalentNext.

ACHIEVEMENTS

- I Solved over 500+ problems on Leet Code and GeeksForGeeks and Secured multiple badges in HackerRank
